

## **2011 SPORT TECHNICAL CONFERENCE A VITAL STEP TOWARDS SUCCESS**

This past November, the Halifax 2011 Canada Games Host Society held their Sport Technical Advisor's Conference for the National Sport Organizations (NSOs). This early engagement initiative of the Host Society allowed the Sport Technical Advisors (appointed by the NSOs) to establish vital links with their local volunteer Sport Leaders (appointed by the Host Society). A number of topics were addressed ranging from officials to equipment needs to scheduling and sport development. Site visits and sport-specific meetings were also part of the Conference's program which were much appreciated by all present. The Canada Games Council's Sport Division was also on hand and took advantage of this opportunity to outline the roles and responsibilities of all parties involved in making the Canada Games a continued success.
