

Canada Games Council

STAKEHOLDER REFERENCE MANUAL

Section 1: Introduction

This stakeholder reference manual is intended to assist National Sport Organizations, Chefs de Mission and Host Societies in preparing for their participation in the Canada Games. It includes important information on Canada Games Council goals, technical packages, protests procedures and other items. It is intended that this information be shared with coaches and Provincial Sport Organizations.

Should anyone be unclear as to the intent or application of any item in this handbook, the Canada Games Council's Sport Committee shall be the only body to render an official interpretation or decision.

Provincial Sport Organizations or coaches should seek clarification from the Sport Committee through their NSO and Chef de Mission.

Feedback on the usefulness of this material is important and welcome. Should a reader identify information needs that are not addressed within the handbook, recommendations should be forwarded to the Sport Technical Coordinator of the Canada Games Council. From time to time, individual sections of the handbook may be updated and will be circulated to NSOs, Chefs de Mission and Host Societies.
