

2017 Canada Summer Games Road Cycling Technical Package

Technical Packages are a critical part of the Canada Games. They guide the selection of athletes by prescribing the age and eligibility requirements, assist the organizing committees by detailing tournament formats and scoring procedures, assist Chefs de Mission in verifying eligibility, help with budgeting by describing the number of participants permitted, advance coaching certification by stating minimum requirements and generally contribute to athlete development by identifying each National Sport Organization's (NSO) version of athletes in the "training to compete" phase of its Long Term Athlete Development Model (LTAD), or other suitable phase of the model as justified by the NSO, discussed with the LTAD expert group, and approved by the Canada Games Council (CGC) Sport Committee.

Every Games' coach, manager, Sport Chairperson and Mission staff has an obligation to read and understand every aspect of the Technical Package. Failure to do so could cost an athlete his or her eligibility for the Games or could affect final standings or the conduct of the competition. If someone does not understand an aspect of a Technical Package, he or she is to seek clarification from the CGC Sport Committee through his or her Chef de Mission or NSO.

Technical Packages are developed 36 to 24 months prior to Games primarily by NSOs, following principles outlined in this document, guidelines and requirements of the CGC. As the overall governing body of the Games, the CGC has the ultimate authority over Technical Packages, but this authority is exercised only with the knowledge and understanding of the concerned NSO. Technical Packages are developed by sport, not disciplines.

If an individual wishes to seek clarification or initiate a change to a Technical Package leading up to a Games, the request should be first directed to the NSO or the Chef de Mission. The NSO or Chef de Mission will evaluate the merits of the request and will, if it has merit, submit the requested change or clarification to the CGC's Sport Division for consideration. The NSO or Chef de Mission will submit the rationale for the request. Changes to age groups, eligibility requirements, team sizes or staff complements will not be considered after 36 months prior to the Games. Additions or changes to events/competition formats that result in a significant cost increase to the Host Society will not be considered after 24 months before the Games, unless approved by the CGC and the Host Society. Substantive changes to events or competition formats will not be considered after 18 months before the Games, unless approved by all participating provincial/territorial associations and the CGC. Minor corrections will be considered at almost any time, but will be increasingly difficult to achieve within six months of the Games. These time frames reinforce the importance of complete understanding of the Technical Package by Games' participants early.

5. COMPETITION:

5.1. General Principles:

Each province/territory may enter a maximum number of athletes in each event, as follows:

	Max. riders	Number of riders counting to team score	Recommended Distance	
			Men	Women
Individual time trial	5	3	20-25 km	10-15 km
Road race	5	3	120 km	80 km
Criterium	5	3	50 km	40 km

5.2. Sequence of Events:

Day	Events
Sunday	Training
Monday	Reserve Day
Tuesday	Individual Time Trial
Wednesday	Training
Thursday	Road Race
Friday	Training
Saturday	Points Criterium

5.3. Specific Rules:

While the competitions will be run under the UCI and Cycling Canada's current competition rules for elite competitions, some specific rules will apply to the Canada Games events.

5.3.1. Bicycles:

Each competitor can only use one (1) bicycle. If an athlete is competing in both Mountain Bike and Road Cycling events, the athlete can use one (1) bicycle for the Road Cycling events and one (1) bicycle for the Mountain Bike events. Bicycles must be registered at the time of license presentation. A seal will be applied to the main part of the bicycle and this seal will be checked at each start and finish. If the seal is not intact, the rider will be disqualified.

Some parts of the bicycle may be changed from one event to another: wheels, handlebars, pedals, etc, but the frame must remain the same for all events. In case of a structural breakdown of the frame, as recognized by the Chief Official, a replacement frame may be used.

5.3.2. Gear Restrictions:

There will be no gear restriction.

5.3.3. Radio Communications:

Radio communication between riders and coaches will **NOT** be permitted as per UCI rules.

5.3.4. Start Order:

INDIVIDUAL TIME TRIAL START ORDER

There is a maximum of five (5) riders per province/territory.

All provinces /territories are awarded a start position based on the province/territory final Road Cycling ranking at the 2013 Canada Summer Games. The best province/territory will start last. This sequence of provinces/territories will be repeated until all riders are given a start position.

As there are five (5) riders per province/territory, the start order sequence is repeated five (5) times. The provinces/territories must choose the order in which their riders start and submit it at the coaches/managers' meeting before the start of the competition. If a province/territory is missing a rider, they will skip the first rotation.

5.4. Points Criterium Scoring:

Competitors are ranked in the order of the number of laps they have completed, followed by the number of points they have earned. Points are awarded to the first four riders crossing the line every 5 laps of the circuit. (5 points for first, 3 for second, 2 for third and 1 point for fourth). Double points will be awarded at half distance and in the final sprint (10, 6, 4, 2 points).

Riders without points at the finish will be placed after points-earning riders who have completed the same number of laps, in the order they cross the finish line at the end of the last lap. In the case where the riders cannot be separated by the photo finish, riders finishing in the same group will receive an equal placing (and equal event points).

Riders may earn points regardless of the number of laps they have completed, with the exception of riders lapped by the breakaway (single rider or group) and not yet caught by the main pack (bunch), who may not contest points sprints or contribute to the breakaway.

The bunch is the biggest group of riders on the course. In the event there are several groups of the same size, the commissaries will rule which group constitutes the bunch.

Lapped riders may be withdrawn at the discretion of the commissaries (for instance, if they pose a safety hazard or are interfering with the race). These athletes will be placed after the last finisher, in the reverse of the order in which they were withdrawn.

6. SPORT SCORING:
